

Dudzile Aaron Sibanda

Frontend & Systems Engineer

Harare, Zimbabwe | +263 77 671 2092, +263 71 297 7556 | duduzilesibanda99@gmail.com

Detail-oriented Computer Science graduate with proven frontend and systems engineering expertise, including Angular, React, RESTful API integration, and Git. Skilled in UI bug resolution, responsive design, technical documentation, backup operations, and team collaboration. Seeking opportunities to grow as a software engineer in dynamic environments

SKILLS & COMPETENCIES

- Frontend: Angular, React, Typescript, JavaScript
- Backend: Java, Node.js
- Database: MySQL, MongoDB, MS SQL Server
- Version Control: Git, GitHub
- Design: Responsive UI, CSS, HTML
- Documentation & QA: Bug fixing, workflow documentation
- Support: Backup and network troubleshooting.

PROFESSIONAL EXPERIENCE

Junior Systems Engineer | Equals Solutions | Apr 2024 – Sept 2025

- Maintain and enhance existing Angular components in internal applications.
- Integrate RESTful APIs with frontend systems by collaborating with backend teams.
- Identify and fix UI bugs, optimizing user experience for multiple browsers.
- Implement responsive design to ensure mobile compatibility.
- Refactor legacy codebases for readability, maintainability, and performance.
- Update technical documentation for improved frontend workflows and features.
- Participate in code reviews, ensuring adherence to version control best practices (Git).
- Work directly with QA teams to validate and verify bug fixes and new features.

Systems Engineer Graduate Intern | Equals Solutions | Apr 2023 – Mar 2024

- Supported development and maintenance for internal web applications using Angular and JavaScript.
- Collaborated on API integration tasks and validated UI/UX across browsers and devices.
- Engaged in technical documentation and process improvement through code reviews and refactoring.

IT Intern | Zimbabwe National Roads Administration (ZINARA) | Mar 2021 – Dec 2021

- Assisted with updating and maintaining the organization's official website.
- Developed web-based systems in PHP & JavaScript for system monitoring and change request management.
- Performed daily differential and monthly full database backups in MS SQL Server.
- Provided hardware and network support organization wide.

EDUCATION

- BSc (Honors) Computer Science | University of Zimbabwe (Upper Second-Class Division 2.1) | 2022
- Advanced Level | Mathematics, Computing, Physics
- Ordinary Level | Mathematics, English, Physical Science, Integrated Science + 6 Science subjects

OTHER QUALITIES

- Clean Class 4 driver's license
